

BSS 2019 Workshop

September 18, 2019, Taipei, in conjunction with

16th IEEE International Conference on
Advanced Video and Signal-based Surveillance (AVSS)
Taipei, Taiwan
September 18 – 21, 2019

Workshop Organizers:

Gee-Sern Jison Hsu, [National Taiwan University of Science and Technology](http://www.ntust.edu.tw), jison@mail.ntust.edu.tw

Svetlana Yanushkevich, [University of Calgary](http://www.ucalgary.ca), syanshk@ucalgary.ca

Marina L. Gavrilova, [University of Calgary](http://www.ucalgary.ca), marina@cpsc.ucalgary.ca

Orly Yadid-Pecht, [University of Calgary](http://www.ucalgary.ca), orly.yadid-pecht@ucalgary.ca

Workshop Scope:

Security and convenience are among the central concerns for developing safe and secure environments, and biometrics and smart sensors are core technologies for facilitating the required level of security and convenience. Significant progresses have been made in many fields of biometrics and sensor technology, and more technological breakthroughs and new applications are expected in the coming years. This workshop aims to promote interactions between researchers, scholars, practitioners, engineers and students from across industry and academia on all aspects of biometrics and smart sensors. It will include both oral and poster presentations. We are soliciting original works that address a wide range of issues including, but not limited to :

- Biometric algorithms, databases, protocols and applications for smart cities;
- Biometrics-enabled managements;
- Biometrics on smart devices;
- Smart sensors and applications;
- Integration of biometrics and sensors.

Keynote speakers:

Prof. Shang-Hong Lai, National Tsing Hua University, Taiwan, <http://www.cs.nthu.edu.tw/~lai/>

Prof. Ming-Hsuan, University of California, Merced, CA, US, <http://faculty.ucmerced.edu/mhyang/>

Important Dates:

Paper submission: July 7 (23:59:59 PST) 2019

Acceptance notification: July 26 2019

Camera-ready version: August 2 2019
