CSC ESTABLISHES TWO NEW SCHOLARSHIPS FOR UALBANY STUDENTS

Major Capital Region Employer Invests in Future of IT Workforce

(Albany, NY) – CSC today announced it has pledged $40,000 to support new scholarships for undergraduate students attending the University at Albany. The scholarships provide an educational opportunity for two students and demonstrate CSC’s commitment to the continued development of the Capital Region’s strong information technology workforce.

“Today’s students are the future leaders of the computing and information technology workforce, and we’re proud to work with UAlbany to help make these scholarships a reality,” said John Caterham, New York state health program director, CSC. “CSC is committed to helping these students develop skills and get good jobs once they earn their degrees.”

This semester, the scholarships were awarded to UAlbany seniors Angelo Quadara and Elisabeth Blowers. A native of Staten Island, N.Y., Quadara is majoring in computer science and applied mathematics. Blowers, a native of Albany, N.Y., is majoring in business administration with a dual concentration in finance and information technology management. The recipients were selected through student application and/or faculty recommendation to the selection committee.

“We appreciate CSC’s generous financial support for two outstanding undergraduate students,” said Dr. Donald Siegel, Dean of the UAlbany School of Business. “CSC understands the importance of business and information technology to our students’ development in the classroom and the workforce. This generous gift also complements the School of Business’ new initiatives in information security and digital forensics.”

The CSC Information Technology Management (ITM) and College of Computing and Information (CCI) Scholarships will provide financial support for an undergraduate student within UAlbany’s School of Business pursuing a degree in ITM and an undergraduate student pursuing a degree in UAlbany’s College of Computing and Information.

In addition, recipients of this scholarship are encouraged to apply for internships at CSC. Student interns would have the opportunity to learn new skills, take advantage of training opportunities and challenging work assignments while gaining valuable experience in the field.
CSC operates two locations in the Capital Region – a main office in Menands and a data center in East Greenbush – and provides more than 1,000 jobs in the Tech Valley. CSC has managed New York's healthcare system for the last 25 years, demonstrating accurate and cost-effective administration for the eMedNY program, while processing more than 410 million claims and $48 billion in payments annually.

About CSC
CSC is a global leader in providing technology-enabled business solutions and services. Headquartered in Falls Church, Va., CSC has approximately 95,000 employees and reported revenue of $15.7 billion for the 12 months ended September 28, 2012.
